Two-Pronged Drive Likely Against Japs

Mighty Allied Task Force Attacks Air and Sea Bases in Sumatra

Plovdiv Is Attacked

Italy-Based Planes Smash At Bulgarian Rail Centre

By PHIL AULT
Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press

LONDON, April 20.—R.A.F. Halifaxes struck from Italy at the Bulgarian rail junction of Plovdiv and Allied medium bombers attacked targets on the continent today, as bad weather reduced the scale of the five-ton-a-minute bombardment from Britain.

Improving conditions over the channel after noon enabled the Allied mediums to pick up the interrupted pre-aviation assault on Europe.

Casual observers saw the day-light raiders flying high over the Straits of Dover, apparently aiming at targets in the French coast in the Calais area.

LONDON, April 20.—(AP)—Between 750 and 1,000 American heavy bombers were unexpectedly from their British base late today and dropped about 2,500 tons of bombs on German military targets in northern France.

Another 1,200 were killed and 1,200 injured Tuesday night in the Paris region when the Royal Air Force dropped about 2,500 tons of bombs and killed more than 2,000 enemy troops.

Russians Enter Inner Defences of Sevastopol

By M. S. HANDLER
Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press

MOSCOW, April 20.—Russian armies have ripped into the inner defences of Sevastopol and today were reported battling on the same lines where the Soviet garrison made its main stand in the 250-day siege of 1941-42.

Front dispatches, referring to the "final hour" of the German and Russian stand at Sevastopol, said Red Air Force planes sank 12 good-sized ships in the harbor within 24 hours.

Heavy naval assault planes were reported laying a "carpet of bombs" on Sevastopol and its Black Sea approaches, ranging as far westward as the Romanian coast to the east.

The Black Sea fleet threw its torpedoes boats and other warships into the harbor, converting them into an island-size gunnery on which blows fell from all sides and above.

Around the gauntlet of Sevastopol, ducked and snubbed Russian troops, many of whom had not slept for several days, fought into the German lines.

The Germans tried to use an armored train on the last night of the regular council meeting to be held on Monday next until Tuesday because of the Victory Loan parade.

Members of the finance committee recommended to city council that the grant for bond coupon payments be increased to provide eight cents during the summer months at a cost not exceeding \$500. The recommendation was made following consideration of a request from the Edmonton Musicians' Protective Association that at least \$1,000 be paid to the band members this summer.

In the letter from the association it was pointed out that curtailment of gasoline ration did not permit the band members to travel outside this year, and that the provision of music in the city's parks would be entertainment of a most beneficial character.

Report No Change In Italian Fronts

By REYNOLDS PACKARD
Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press

NAPLES, April 20.—No essential changes were reported in the front fighting in southern Italy today, although Allied troops were active on all the main fronts, capturing a number of prisoners on the Anzio beachhead near Lido and in the Anzio sector of the British 8th Army front.

A brief flare-up occurred inside Cassino yesterday when Allied machine gunners moved up to within range of the German-held Hotel Continental and Hotel Des Roses to attack their Nazi occupants, killing several Germans and wounding others.

The Germans countered with mortar fire and machine gun fire from positions in the Cassino railway station just across the town.

64 Nazi Aircraft Are Destroyed In Raid on Zagreb

LONDON, April 20.—(AP)—Allied planes destroyed 64 German aircraft during a recent raid on Zagreb and killed and wounded a "great number" of Nazis on a railway line near the Croat capital, headquarters of Marshal Josip Broz Tito announced today. This total probably included planes destroyed on the ground, as the Allied statement in the April 6 raid says 16 planes.

As London Buses

LONDON, April 20.—(AP)—British air trucks were pressed into service as buses in some parts of London today to alleviate a transportation crisis resulting from the loss of 1,200 bus drivers and conductors.

Ninety army trucks, operating without collecting fares, covered the city's main roads, and were active on all the main fronts, capturing a number of prisoners on the Anzio beachhead near Lido and in the Anzio sector of the British 8th Army front.

A brief flare-up occurred inside Cassino yesterday when Allied machine gunners moved up to within range of the German-held Hotel Continental and Hotel Des Roses to attack their Nazi occupants, killing several Germans and wounding others.

The Germans countered with mortar fire and machine gun fire from positions in the Cassino railway station just across the town.

Two-Pronged Drive Likely Against Japs

The following dispatch by the Far Eastern manager of the British United Press, now in New United States, discloses a surprise announcement of an Allied naval attack on Japanese-held Sabang in relation to the larger strategy of the Pacific.

By JOHN R. MORRIS
Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press

NEW YORK, April 20.—Today's announcement of a successful Allied attack on Sabang may be taken as a forerunner of the Allied offensive against the Japanese war lords from bases in southeast Asia begins to roll.

The first prong planned and executed by Lt. Gen. Joseph Stilwell, commander in chief of the American forces in China, Burma and India, is designed to spear across northern Burma and China support Nationalist Chinese, Nimitz's promised seizure of bases on the Chinese coast.

Stilwell made this intention clear in his statement of Feb. 13, indicating the allocation of giant cargo planes to the support of such a campaign.

SECOND PRONG

The second prong, which the Japanese are unquestionably an important part, is being planned and directed by Lord Louis Mountbatten, supreme commander of the southeast Asia command. Mountbatten established himself recently at Kandy, Ceylon, where he is in a position to direct powerful naval forces across the South China sea from the great British naval bases in Ceylon.

Ceylon is the perfect springboard for a gigantic naval offensive designed to recapture Singapore and cut off Japanese forces.

Work Is Halted At Ford Plants

WINDSOR, April 20.—(AP)—The Ford Motor Company of Canada today gave notice in writing of termination of its collective bargaining agreement with the local 200 of the United Automobile Workers of America (C.I.O.).

The company action followed by a little more than an hour a mass work stoppage by day-shift workers of the company. The men quit work at 11 a.m. in what was reported as a "half holiday" to discuss a dispute with the company over grievance procedure.

Company officials denied in termination of all the giant year plant, which employed more than 14,000 workers, aside from the office staff—were being locked.

500 Manchester Gas Men Staging "Wildcat" Strike

MANCHESTER, Eng., April 20.—(AP)—Five hundred Manchester gas workers today staged a "wildcat" strike today over a wage dispute, and the fact supply of gas was cut off in the city.

The strike refused to listen to the pleas of union leaders to return to work pending attempts to get a new contract. The men protested recent award increasing day work a penny (two cents an hour) and a wage increase for shift workers.

Naval Committee Urges U.S. Retain Caribbean Bases

Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press

WASHINGTON, April 20.—A U.S. house naval affairs subcommittee which recently toured South Atlantic naval bases today recommended immediate steps to gain perpetual title to bases leased to the nation for 99 years by the British return for the 300 foreign destroyers.

The committee urged that the United States should retain its naval bases in the Caribbean Sea.

The committee also urged that the United States should retain its naval bases in the Caribbean Sea.

What to Do With Germany

By LOUIS NIZER

The 32 crimes charged against Hitler in World War I May Be Applied to The Criminals and Charges to Be Made Against Various Ranks of Officials.

Chapter IV.

Following World War I, a special commission was formed in 1919 to classify proof and data of the crimes committed by Germany under certain headings. Such is the constancy of the Hun that they may be listed here since they are unchanged and remain as appropriate at the end of the second World War as at the end of the first. The list of crimes charged is:

1. Murder and massacres; systematic terrorism.
2. Purges of the population.
3. Forced labor.
4. Deliberate starvation of civilians.
5. Rape.
6. Abduction of girls and women for the purpose of sexual gratification.
7. Deportation of civilians under inhuman conditions.
8. Forced labor of civilians in connection with the military occupation.
9. Usurpation of sovereignty during military occupation.
10. Compulsory conscription of civilians.

Canadians Command, Serve In, Baby "Flat Tops"

By HAROLD GUARD
Exclusive to The Edmonton Bulletin
Copyright, 1944, by British United Press

ALLIED HEADQUARTERS, CEYLON, April 20.—A mighty Allied battle fleet, sweeping unchallenged to within 700 miles of Singapore, bombed and burned the twin Japanese air-sea bases of Sabang and Lho Nga in a surprise dawn strike on northwestern Sumatra Wednesday, and returned undamaged after "destroying" at least 25 enemy ships and possibly five ships.

A terse communique revealed that the big task force under Admiral Sir James Somerville, comprising Royal Navy battleships, aircraft carriers, cruisers and auxiliaries and a host of supporting Allied warships carried out the devastating attack almost without opposition from the stunned Japanese land, sea and air forces.

Units of the supporting fleet were believed to have been based at Sabang, and the possibility was raised some small Italian ships might have taken part in the attack.

THUNDERING IN OVER THE EASY THUNDERBOLTS AT SABANG AND LHO NGA, THE ALLIED BATTLE FLEET, UNDER ADMIRAL SIR JAMES SOMERVILLE, COMPRISING ROYAL NAVY BATTLESHIPS, AIRCRAFT CARRIERS, CRUISERS AND AUXILIARIES, AND A HOST OF SUPPORTING ALLIED WARSHIPS CARRIED OUT THE DEVASTATING ATTACK ALMOST WITHOUT OPPOSITION FROM THE STUNNED JAPANESE LAND, SEA AND AIR FORCES.

Units of the supporting fleet were believed to have been based at Sabang, and the possibility was raised some small Italian ships might have taken part in the attack.

Sharply Attacked CBC to Review Policy on Free Political Time

By JACK BRAYLEY
OTTAWA, April 20.—(AP)—The Canadian Broadcasting Corporation's policy of free political time will be reviewed, it was announced yesterday at a meeting of the board of directors, where the policy was variously described as "undemocratic," "arbitrary" and "discriminatory."

Mr. Augustin Firsirot, acting general manager of the CBC, said the committee he would see the matter was placed before the board of directors for consideration, especially in connection with the exclusion of the Social Credit party from free time and the matter of the length of the free time period itself.

WORK OUT SCHEDULE

Say there had been some misapprehension on the division of the monthly half-hour period among the three parties qualifying for time by an all-party definition of national party status, it was said a schedule had been worked out.

ALLIED HEADQUARTERS, CEYLON, April 20.—A mighty Allied battle fleet, sweeping unchallenged to within 700 miles of Singapore, bombed and burned the twin Japanese air-sea bases of Sabang and Lho Nga in a surprise dawn strike on northwestern Sumatra Wednesday, and returned undamaged after "destroying" at least 25 enemy ships and possibly five ships.

A terse communique revealed that the big task force under Admiral Sir James Somerville, comprising Royal Navy battleships, aircraft carriers, cruisers and auxiliaries and a host of supporting Allied warships carried out the devastating attack almost without opposition from the stunned Japanese land, sea and air forces.

Units of the supporting fleet were believed to have been based at Sabang, and the possibility was raised some small Italian ships might have taken part in the attack.

Hit at England

LONDON, April 20.—(AP)—German planes blasted at England last night for the second successive night, but other Allied forces found ground against a Japanese force of 10,000 men at Imphal and beat off two enemy attacks near Bhamo.

On April 19, the Japanese 15th Army captured the village of Wazir in the main highway to Mogaung, and elements of the 38th Division were reported to have been moved to the east where they were disclosed to have trapped a Japanese division in the Mogaung area. The Japanese were inflicted on the cornered enemy troops, the communique said.

Units of a relief column driving down from Dimapur toward Kohima were reported to have found the beleaguered town to end its week-long siege. Simultaneously, other Allied forces found ground against a Japanese force of 10,000 men at Imphal and beat off two enemy attacks near Bhamo.

German Prisoners Observe Hitler's Birthday in South

LEITHBRIDGE, April 20.—(AP)—Thousands of German prisoners of war here today celebrated Hitler's birthday. The prisoners were given a program of activities within their compounds and by cutting a monstrous birthday cake, as learned from reliable sources. It is understood the huge cake bore a large swastika.

Hit Crete Airport

CAIRO, April 20.—(AP)—South African bombers aimed at German airfields in Crete yesterday, placing fragmentation bombs along the runways and a gasoline dump.

Allied Fleet Attacks Sabang Base

Continued from Page One
down off Sabang. The ship was rescued by a submarine that surfaced below under direct fire from the Japanese ship. Sabang took him aboard.

WARSHIPS STRAFED

Two Japanese destroyers and an escort vessel were strafed at their moorings and left heavily damaged. The two merchant ships were hit directly by heavy bombs and may have been sent to the bottom.

It was the first great naval counter-blow of the war against the western flank of Japan's southern empire, and Lord Louis Mountbatten's communique said the British warships were caught completely off guard.

Intense anti-aircraft fire was encountered after the British ships. But it failed to ward off the Allied raiders.

Over 1,000 pound bombs landed squarely on an oil tank, sending clouds of black smoke 700 feet in the air, and numerous direct hits were scored on the Sabang docks, a power station, barracks, hangars and workshops.

Admiral Sir James Somerville, commander of all Allied naval forces in the Indian Ocean, directed his fleet into the mouth of the Malacca strait, which stretched southward to the captured stronghold of Singapore, and completed the attack with no damage to his force.

FORMIDABLE FORCE

The communique indicated that the British fleet was equipped with any naval force the Japanese might dare to throw against him. His fleet included aircraft carriers, battleships and cruisers, and an escorting screen of destroyers and submarines—probably the most formidable naval force to appear in the Indian Ocean since the start of the war.

The bold attack brought Japanese warships to the surface and air assault from three sides, with American warships and submarines on the offensive from the South and Central Pacific.

The attack came less than a week after Admiral Lord Louis Mountbatten, supreme commander of the southeast Asia theatre, moved his headquarters from New Delhi to Central India to Ceylon, Somerville's force for the attack was a good sign of getting nearer to his "theatre of operations."

SEA OPERATIONS LIKELY

With the monsoon season approaching, during which further operations in embattled northern Burma would be virtually impossible, speculation was mounting that British forces may be offensive in the southeastern Asia theatre.

Sabang is situated on the tiny island of We off the northern tip of Sumatra, and marks the western end of the Dutch East Indies. Only 700 miles to the south-east lies Singapore, the British base which Churchill has promised will be restored to British rule.

An Allied thrust toward Sumatra or Singapore presumably would involve the neutralization of Sabang, which the Japanese are believed to have converted in a strong base and set aside to protect their convoys carrying supplies and reinforcements to Burma.

SAIL 100 MILES

To reach Sabang, the Allied naval force probably sailed 100 miles due east from Ceylon across the Indian ocean, by-passing the Suez Canal and the Red Sea.

British submarines have been active in the Straits of Malacca between Sumatra and Malaya for several months, however, and have sunk Japanese merchant vessels, and Sabang guards the northwestern approaches to the strait.

Alleged Deserter Will Face Charge Attempted Murder

VANCOUVER, April 20.—(AP)—Duncan MacGregor, 36, of Vancouver was charged with attempted murder yesterday in connection with the shooting of a British military policeman at a downtown Vancouver hotel, James Churchill, 40, was charged with the illegal possession of firearms.

MacGregor and Churchill appeared in police court yesterday and were remanded a week.

Lance Corporal T. J. O'Connell of the Army's Provost Corps is in hospital after being shot in the chest while attempting to arrest two alleged army deserters, James Churchill and Clark, who escaped injury in the hotel tussle.

Black Market May Force Reduction In U.S. Gas Rationing

WASHINGTON, April 20.—(AP)—Congress was told by an official of the price administration agency today that "hot" coupons bringing down costs each and every day of rationing gasoline, may force a reduction in the United States rationing.

This assertion was made by Shad Polier, director of gasoline rationing, after a hearing yesterday on a digest of black market operations prepared for the board of representative legislative committees.

The committee appeared yesterday in an interview with the committee.

Kin of Canadians With U.S. Forces Can Get Permits

OTTAWA, April 20.—(CP)—Canadian may now permit to visit Canadian relatives in the United States armed forces, providing they comply with United States immigration regulations which limit the weight and size of parcels, the federal post office department said yesterday.

Under the United States regulations, no parcel exceeding five pounds in weight or 15 inches in length or 10 inches in width, and six inches combined, is accepted for shipment.

Members of American military units in the United States are permitted to send parcels to their friends in the American forces.

The parcels could be sent with out permission having been received from the commanding officer of the address.

To Celebrate 90th Birthday

Car Paulsen, Ponka pioneer, will celebrate his 90th birthday Sunday at Paulsen, at the home of his son, Harold Paulsen.

He is a well-known early settler of Ponka, and was a member of the Oddfellows Lodge for 70 years.

He is also a member of the 50th anniversary association with the lodge in St. Paulsen's prized possession.

A resident of Alberta since 1888, he came to the province from the District of Columbia, where he was a farmer in the Ponka district since arrival.

No Action by U.S. On Expropriation

WASHINGTON, April 20.—(AP)—On the basis of present information, the United States department has declined to intervene in what is being called an expropriation of Canadian stockholders.

The property is the Eldorado Mining and Refining Ltd., which operates a large mine at Great Slave Lake, N.W.T.

The Canadian government previously refused to take action against the Canadian stockholders, a department official said. In order to take the mine for its purposes.

According to information available here, the directors of the company, which the Canadian government to sell the stock at \$1.35 per share, would be a stockholder.

A number of stockholders have protested to the state department, however, that they would like to retain their interests in the company or obtain from the Canadian government similar interests in other projects.

Canadian Cities Facing Critical House Problem

By The Canadian Press
A critical housing situation in Canada's major cities, with more than 1,000 families in home trouble, is disclosed by a survey on May 1 made by a Montreal team of social workers.

A similar acute condition was evident in Ottawa, with between 800 and 1,000 families in home trouble, and in Vancouver, 600, and at Victoria, 160.

Other large centres such as Winnipeg, London, and Windsor, also, the situation was not serious but no figures were available on just how many would have to move by May 1 without adequate accommodation available.

APPEAL TO OTTAWA

City officials in Ottawa made to the federal government by municipal authorities at Toronto, Montreal and Quebec for a survey of the housing crisis.

Montreal Tenants' Association wants total freeing of leases and has asked warden to issue a writ of habeas corpus to Prime Minister Mackenzie King and telephone calls to Montreal.

In Toronto nearly 1,200 families have notified city they are facing eviction. Mayor J. C. Campbell and Con. R. H. Saunders were in the city to discuss the housing problem.

Continued from Page One
out of the city, and the Dutch East Indies. Supported by the massive manpower and material resources of India, it can be supplied with oil over a comparative short haul from Iraq and Persia practically immune from Japanese attack.

As far back as Dec. 8, censors of the southeast Asia command permitted British troops to file dispatches from New Delhi indicating a plan to "mount a ladder of the Malay peninsula and the island of Sumatra."

At the next committee session, Mr. Glen Bannerman of Toronto, president of the Canadian Association of Broadcasters, will be the chief speaker.

PRIMARILY NAVAL
Harold Guard, now at Kandy but then at New Delhi, was permitted to report that the "opening of such vast opportunities must necessarily be naval, with the naval forces of the British Empire, and land force movements would be directed by naval strategy applied to the entire area."

Dispatches from Kandy said that the British Empire, and land force movements would be directed by naval strategy applied to the entire area.

Figures submitted by Dr. Frigon showed gross revenues of \$2,485,214 for the 1942-1943 fiscal year. Of this \$1,121,214 was received from privately-owned stations on the CBC network, and the balance was received from government-owned and operated by the CBC itself. He also listed other various charges against the CBC.

PRIVATE BREGER ABROAD

At St. Louis, Missouri, Breger, with more than 1,000 families in home trouble, is disclosed by a survey on May 1 made by a Montreal team of social workers.

A similar acute condition was evident in Ottawa, with between 800 and 1,000 families in home trouble, and in Vancouver, 600, and at Victoria, 160.

Other large centres such as Winnipeg, London, and Windsor, also, the situation was not serious but no figures were available on just how many would have to move by May 1 without adequate accommodation available.

Figures submitted by Dr. Frigon showed gross revenues of \$2,485,214 for the 1942-1943 fiscal year. Of this \$1,121,214 was received from privately-owned stations on the CBC network, and the balance was received from government-owned and operated by the CBC itself. He also listed other various charges against the CBC.

Guerillas Continued Fight Against Nazis in Odessa

By HAROLD KING

ODESSA, April 20.—(CP)—A rosy-cheeked, blue-eyed Russian guerilla leader, Anatoly Loschenko, disclosed yesterday how a guerilla movement mushroomed in the Catecombs 80 to 100 feet below this martyred city and fought the Germans.

Curtin Expects U.S. and Allies To Keep Peace

SAN FRANCISCO, April 20.—

(AP)—Prime Minister John Curtin, en route to Washington for war and post-war conferences with President Roosevelt, said yesterday he looks to the United States and her allies to prevent world peace from being disturbed again by aggressors.

The prime minister said at a press conference that the conflict has taught the Allies that no single power can stand alone and that a concert of nations is needed during and after the war.

Mr. Curtin was accompanied by his wife, and by Gen. Sir Thomas Blaney, commander-in-chief of Allied ground forces in the southwest Pacific, and Sir Frederick Shedden, secretary of the department of defence. Mr. Curtin said all occupied countries should be kept from the enemy. No Allied country should claim certain territory, such as an island, merely because its forces captured the region. If Australian troops, he said, took a Pacific island they could do so only with the full cooperation of Allied sea and air power. He said Australia will not proclaim sovereignty over any such island or region.

The premier stressed that the Japanese mandated islands should never be allowed to become "potential bases of strength to aid enemy."

The question of handling Japan after the war is one for the peace conference, he said.

He praised Australia's effort in the war and said "whatever the military plan Australia shall share in it."

New Minesweepers

MIDLAND, Ont., April 20.—(CP)—Contracts have been let by the Canadian government for construction of six wooden minesweepers, two each in Midland, Peterborough and Honey Harbour. Officials at the Midland plant said yesterday the keels of British Columbia fir have been laid already and progress is being made on the framework.

"Let's see... that sign's been there so long I've forgotten what I wanted a man for."

Shortage of Food In Southern Italy Due Black Market

By RICHARD G. MASSOCK

NAPLES, April 20.—(AP)—

Southern Italy is hungry, but it is not the fault of the Allied administration which is pouring 70,000 tons of food each month into the black market-ridden territory.

Civilian rations are inadequate, but above starvation level, and much better since the Allies chased out the Germans, who never gave the Italians anything.

Officials estimate that southern Italians themselves possess sufficient hoarded products to feed the area if it were not for the unequal distribution of the black market. The working man blames not the Allies, but the black marketeers and the big agriculturists who supply them.

Plan For Defence Council Is Dropped By Lord Chatfield

By WILLIAM STEWART

LONDON, April 20.—(CP)—Lord

Chatfield has withdrawn his proposal for the formation of a non-party national or imperial defence council to guide such policy for 10 years after the war.

Lord Chatfield, one-time minister for the co-ordination of national defence, announced that he had withdrawn his plan after criticism had greeted its presentation to the House of Lords.

In his presentation, the Admiral of the Fleet asked the government to seek an agreement by which all parties would declare themselves favorable to dealing with defence as a non-party subject.

Bennett Advocates Continuous Talks On Foreign Policy

LONDON, April 20.—(CP)—Viscount

Bennett yesterday told members of the Prime Minister's League "we must strive with all our power and might to see that the fate which came to Rome doesn't come to us."

Speaking at the annual conference of the league, founded in 1886 and named after Benjamin Disraeli's favorite flower, the former Canadian Prime Minister warned that "disintegration starts from very small seeds."

Lord Bennett said there was need for continued consultation between Dominion prime ministers on foreign policy.

Work of Red Cross Must Aid Recovery In Post-War Period

TORONTO, April 20.—(CP)—Red

Cross organizations will have to continue their expanded wartime work into the post-war period to assist in world recovery, Sir William Kerr Fraser-Tyler, head of a British Red Cross mission to Washington, said here yesterday in a discussion of the annual meeting of the Canadian Red Cross central council.

"We have got to realize that the world is very sick, and like a sick man, it has got to be nursed back to health, slowly and patiently," he said. "It is we who have got to perform that duty."

He said one of the greatest tests of the Canadian Red Cross was its work in maintaining the morale and health of prisoners of war.

Allied Planes Again Downed By Own Guns

WASHINGTON, April 20.—

(AP)—A second instance of American troop transport planes coming under fire from Allied as well as enemy anti-aircraft guns — with 10 planes shot down and 44 officers and men missing—was reported last night by the United States war department.

Reporting on the incident which occurred at Catania, Sicily, last July 15-16, the department said it was estimated that 50 per cent of the loss was due to "friendly" anti-aircraft fire.

The department did not say who manned the Allied guns, but a navy spokesman emphasized that the loss did not come from United States naval vessels.

The department also said that 13 transports were lost recently, the department acknowledged that "13 transport planes were shot down with the loss of 410 men by July 11 off Sicily on the southern Sicilian coast, when Allied anti-aircraft guns opened fire on them."

Yesterday's announcement, as did the first, followed previous reports of unofficial reports of such losses. Drew Pearson said in his Washington column that after the Gale incident "we lost a second wave of 21 planes with at least 400 men three days later—also shot down by Allied naval guns."

The department made this brief statement: "While the war department normally does not discuss operations in a British area, it may be said in this instance the United States loss in the Catania operation on the night of July 15-16, as taken from official records, was 10 transport planes and 44 officers and men missing, of which 50 per cent were estimated as having been caused by friendly anti-aircraft fire."

Patrols Active WITH THE CANADIANS IN ITALY

April 20.—(CP)—Normal patrol activity continued yesterday along the Canadian sector of the Adriatic front with mortar and machine gun fire reported. Patrols went out from both sides. Weather continued warm.

Volunteers from the corvette went aboard and fought the blue under control while "under stand-by" orders, the corvette engaged the area in anti-submarine manoeuvres.

Asked what the British losses in planes and men were on this occasion, a department official replied that the British authorities would have to take any announcement on that subject. It was understood here, however, that the British plane losses were smaller than the American.

Royal Family Pays Visit to Theatre

LONDON, April 20.—(CP)—The

King and Queen took Princess Elizabeth to the theatre last night to celebrate her 18th birthday which is on Friday. They went, with Princess Margaret, to the Palace theatre to see Jack Hulbert and Cicely Courtney in "King in the Air." During intermission Hulbert and Miss Courtney were received by the King and Queen and the Princesses.

4,000-Pound "Dusters"

By ALAN RANDAL

WITH THE R.A.F. SOEHWIER IN ENGLAND, April 20.—(CP)—At a secret operation base in England the R.A.F. has established its men and machines who do the "tidying up" in Germany for the Allies. The machines are the famed Mosquito bombers. And the dusters they use for this tidying up job are 4,000-pound bombs.

These planes and these men and these bombs are what the Air Ministry is talking about in announcements such as are sometimes appended to communiques: "Mosquitos were over Düsseldorf last night."

For a time the Mosquitos could be classed as "nuisance raiders." Now, with the bombs load stepped up they are a force to be reckoned with.

5 Corvette Crewmen Vatican Airplane Fought Tanker Fire Gets Safe Passage

TORONTO, April 20.—(CP)—

How five members of a Canadian corvette boarded a blazing and abandoned tanker at midnight on the Atlantic and fought a fire for several hours while a pack of German U-boats hovered in the vicinity was told last night by Lieut. J. E. Pakins, one of the corvette's officers home here on leave.

The incident, said Lieut. Pakins, submarine detection officer on the corvette, was the highlight of a midnight battle with a German wolf pack last September.

Lieut. Pakins said that at the corvette raced through the heavy seas, dropping depth charges in an effort to protect a Canadian barge convoy; the officers noticed a blazing tanker, the highlight of the battle.

It added that the bag contained many letters from Italians in Allied occupied territory to relatives in Rome as well as apostolic reports from all parts of the world.

Three Fliers Killed HALIFAX, April 20.—(CP)—A plane carrying three R.C.A.F. fliers plunged last yesterday into Cove Bay, just outside the mouth of Halifax harbor, and all aboard apparently were killed in the crash. No details were announced. Next-of-kin of the airmen have been notified and their names will be released shortly.

Put Victory First!

MAKE no mistake about it—Canada's fighting men are "Putting Victory First!" They are risking life itself to preserve our freedoms and protect our homes! Many hundreds of thousands are serving far and near—without counting the cost or reckoning the reward. Already more than two thousand of them—from every service and every province—have received awards for gallantry in action. Nearly twelve thousand have made the supreme sacrifice . . . thousands more have been wounded, are missing or are in enemy prison camps.

What less can we do than strive to match their splendid patriotism? What less can we do than back their valor with our dollars? What less can we do than support Canada's new Victory Loan to the limit of our resources? Let us all "Put Victory First!"—by putting this latest and greatest Victory Loan over the top.

BOSTON, April 20.—(AP)—Willy Gerard Cote of Ste. Hyacinthe, Que., outlasted plucky Johnny Kelley, of West Acton, in a grueling duel through the last five miles Wednesday to win his second successive Boston A.A. marathon and the third of the last five of those classics.

The pair ran almost shoulder to shoulder through the last five miles after Kelley had trailed the flying Frenchman in the heart-breaking hills of Newton.

For a time it seemed that this was at last the day for Kelley, who won the event in 1935.

Tradition, too, was running with Kelley for no one has won the event two years in a row since the legendary Clarence Donahue, absent from the field for the first time in years, accomplished the trick almost two decades ago.

Before Demar, only J. J. McAffrey, of Hamilton, Ont., was able to duplicate his 1901 triumph in 1902.

"For the first time, I used my head," Cote said after the race. "Johnny had me worried but I held in and stuck with him or let him stick close to me. I have been lucked if I tried to pull away from him after he caught up to me."

The pair was less than a mile from the finish line when Cote's strength asserted itself and he opened up a few yards over the tired Kelley. Through the last half-mile the Canadian army sergeant forged ahead steadily and crossed the line 70 yards ahead of Kelley.

In addition to Coach Bob Hlora, other members of the team making the trip are Harley Miller (captain), John Gullikson, Earl Ayers, Bob Chammes, Mike Kroma, Charles (Skip) Phillips and Harry Hieserman.

U.S. Engineers Leaving Tonight For Cage Finals

U.S. Engineers, senior basketball champions of Alberta and western representatives in the Canadian final, leave on tonight's train for the east.

First of the Dominion championship series with the Merion Steel quintet is scheduled for Monday night and probably will be played in St. Catharines. It is expected the title playoffs will be best-of-three affair, but no official announcement in that connection has been made so far.

In addition to Coach Bob Hlora, other members of the team making the trip are Harley Miller (captain), John Gullikson, Earl Ayers, Bob Chammes, Mike Kroma, Charles (Skip) Phillips and Harry Hieserman.

Red Deer Army Wheelers Honored At Big Banquet

RED DEER, April 20.—Members of the Red Deer Army hockey team—the A20 Wheelers, were honored by the training center at a banquet here Monday when 250 of the centre personnel gathered to pay tribute to the fine playing and good sportsmanship of the club which provided them with such wholesome and worthwhile entertainment during the past season.

The principal speaker of the evening, Col. J. J. Burton Wilson, commander of the training center, outlined the highlights of each player's career during the season, and presented each of the players with an engraved silver watch.

An item of especial interest was a presentation made to "Sugar Jim" Henry by Sgt. Mac Coville. On behalf of the players and the club executive "Sugar Jim" was "Windy" Smith, Lou Murphy, Charles (Skip) Phillips and Harry Hieserman.

Harvey Certain Army Will Pass 6th Loan Quota

A challenge to the army in Military District 13 to surpass the 6th Victory Loan campaign, opening Monday, the fine showing made in the 5th Victory Loan campaign last October, was issued by Brigadier F. M. V. Harvey, V.C., M.C., district officer commanding M.D. 13 today.

"I am confident that the three armies will exceed all previous efforts, and the citizens generally should be able to keep pace with the armed forces," Brigadier Harvey stated.

In the 4th Victory Loan campaign a year ago, the army quota for Military District 13 was set at \$200,000. The army actually subscribed \$250,000.

OVER-SUBSCRIBED The army quota for the 5th Victory Loan last October was set at \$420,000, and the amount subscribed was \$750,000, or 179 per cent of the original quota, with 62 per cent of the personnel making purchases, which put the army among the leaders in supporting the loan," he said.

"I am sure that the army will be in the forefront again in the 6th loan, as we are well organized for the drive, and we intend to do a thorough job."

"Your quota has been increased again, this time to \$280,000 and it is our objective not only to exceed that amount, but to increase the percentage of personnel purchasing. We don't want any pennants or patting on the back if we more than double our quota. Investing in this loan should be a pleasure and a privilege, and in a duty," he concluded.

Fats, Paper, Rags, Needed For Salvage

Waste paper, rags and fats are urgently needed in the nation's war effort, W. S. Kieley, Winnipeg, western supervisor, national salvage, stated on his arrival here to confer with E. C. Piller, organizer of national salvage for northern Alberta, and a section of British Columbia.

He said that waste paper was very urgently needed, and that it had been decided, to assist in the collection of paper at rural centers, to absorb half of the low-hauler-load-lots freight rate, so that shipments can be made to urban centers where they can be assembled into carload lots.

Rags are almost equally as urgently needed as paper, Mr. Kieley stated, and he urged householders to survey their available supply and send them to the local committee depot. These rags are needed in the building trade industry for the making of siding and asbestos shingles.

The supply of fats has been very disappointing, Mr. Kieley stated. Fats are badly needed and it was thought that with the abandoning of rationing of meats that the supply would have increased. Housewives should save every ounce of fat possible, he stated.

Mr. Kieley will make a survey of northern Alberta with Mr. Fisher, and will stop over here for several days. He will visit Calgary and other southern centres following his survey in this district.

Disease Incidence Is Low in This City

Edmonton has one of the lowest rates of venereal diseases in Canada, Lt.-Cmdr. H. G. Baker, Ottawa, officer in charge of venereal disease control for the Royal Canadian Navy, stated on his arrival here to confer with Lt.-Cmdr. J. A. Dawson, officer commanding H.C.M.E. Non-stuch.

He said that Edmonton was co-operating to the limit in the national campaign being waged against this disease throughout the Dominion.

He expressed astonishment at the number of young girls and boys that are roaming Canadian city streets, and said that this was one of Canada's major problems. Neglect by parents was given as the cause of this problem by Lt.-Cmdr. Baker.

He said that if parents did not do their duty and keep these boys and girls off the streets then measures should be taken by the civic authorities. Supervised playgrounds and recreation was one answer to the problem, he said.

The normal balloon tire on an automobile flattens to between 10 and 12 inches in gripping the road.

FUNNY BUSINESS

Going East

B. G. Aylen, of the firm of Kinard and Aylen, chartered accountant, external auditor for the City of Edmonton, who will leave Thursday evening for New York in connection with negotiations now being carried on for the refinancing of a further block of the city's bonded debt.

Arrangements Complete For Grand Parade

Continued from Page Nine parade marshal for all American forces participating.

The breakdown lorries and mobile workshops of the Royal Canadian Ordnance Corps which are capable of on-the-spot repairs of anything from a wrist watch to a complete tank will be on display for the first time. They will be provided and manned by personnel of No. 3 Base Ordnance Depot, R.C.O.C. Pacific Coast Command, under Capt. A. Southwell.

ANTI-TANK GUNS

This unit will also display a number of two-pounder anti-tank guns, troop-carrying vehicles and fifteen hand-drawn trucks complete with their machine gun armament. The evolution of field artillery in the last hundred years will be shown by various units in the parade. The crews of ancient wheeled field pieces that cut short the career of Louis Riel and his Meis in the 7th will be heard with the rumble of the famous 18-pounder of World War I. Rubber-tired guns of the present war will complete the lineup.

The head of the R.C.A.S.C. Depot of Bird Deer will have the honor of playing all units past the saluting base.

All vehicular traffic other than street cars, will be kept off Jasper avenue from 8:00 p.m. until the parade has dispersed. City police, aided by police detachments from the Navy, Army and Air Force, will patrol the entire route of the parade.

The intersections, 100, 102 and 105 avenues between 100 and 105 streets will be kept clear of traffic after 8 p.m. No street cars, either east or west bound, will be permitted on Jasper between 98 street and 109 street after 8:45 p.m.

CYCLE ESCORT

Headed by a motorcycle escort of the Edmonton traffic squad, the parade, after a rendezvous in the vicinity of Jasper and 106 street, will move east on Jasper to 98 street. The flags of the United Nations will be the first unit in the parade.

The order of march will be: Canadian Legion Band; Veterans' organizations; pre-war artillery pieces; Red Deer Depot Band, Canadian Army, U.S.A.A.F. forces on foot; American mechanized contingent; Royal Canadian Navy; Edmonton Sea Cadets; C.W.A.C.; No. 13 Vocational Training School, Canadian Army; Royal Canadian Ordnance Corps; 4th Reserve Brigade Group, Canadian Army; Royal Canadian Officers Training Corps; University of Alberta; Royal Canadian Air Force Women's Division; No. 2 Air Observers School, R.C.A.F.; No. 4 Initial Training School, R.C.A.F.; No. 3 Manning Depot, R.C.A.F.; the Edmonton Air Cadet Squadron of the Canadian Air Cadets.

Squad Lt. J. F. Bybell will act as parade liaison officer; WO1 F. W. Purkis, P.F.C.L.L. will be parade warrant officer.

Maj. R. C. Arthur, M.C., will act as parade marshal for the veterans organizations while Maj. W. C. Roberts, L. S. R. (R.C.), brigade major of the 4th Reserve Brigade, will act in a similar capacity for all reserve units participating.

City Police Officers Describe Inhalers Used to Get "Cheap Lift"

By GRAHAM BARKER

If you have that "stuffed-up" feeling in your head and want to use a benzadrine inhaler for relief, you will first have to get a doctor's prescription. Sale of the inhaler over drug store counters has been restricted, because too many persons used the drug as a "cheap lift."

Two officers of the law—Constable Robert C. Duncan, R.C.M.P., and Detective Alex. Stevenson, city police department, with whom users of the drug had come in contact more than one occasion, told of the actions of the drug on a person, and also how it was obtained.

The benzadrine "lift" has been "enjoyed" all over Canada, used as a stimulant for crime, and the method of extracting the drug from the inhalers was said to have been figured out by addicts.

The inhalers are cut open and the absorbent cotton removed to loosen it. The cotton is replaced in the container and then soaked with water.

From this process, a milky white fluid is obtained, a fluid which is

The inhaler package states that each tube contains 25 milligrams

of amphetamine, 97 milligrams of oil of lavender and 22 milligrams of menthol.

Benzadrine was described as being an equivalent stimulant very like cocaine or strong caffeine.

Addicts who figured the extraction process out in this case, will have to start all over again. Inhalers are no longer easy to get.

City May Have More Rain Today

Light showers fell in the city Wednesday between 1:30 p.m. and 10 p.m. Only a trace of precipitation was registered in the city, but there were widely scattered showers throughout the district according to weather officials. Temperature remained mild with a high Wednesday of 57 and an overnight low of 36 degrees above zero. Temperature at 8:30 Thursday morning was 38 degrees. Indications of more unsettled weather are given in the forecast for today and tomorrow which is "partly cloudy with few scattered showers this afternoon clear and cool to night."

Live oaks are so named because the leaves persist throughout the winter.

36 Recommended Doctor's Degree

Thirty-six students, 13 of them from Edmonton, will be recommended by the University of Alberta faculty of medicine for admission to the degree of doctor of medicine. It was announced Thursday by A. E. Ottewill, university registrar.

Three of the Edmonton graduates are women: Miss Marion Elizabeth MacLennan; Miss Thea Sylvia Miner and Miss Rhoda Bernice Neil.

The complete list is as follows: Acton, William Charles B.A., Edmonton; Amundsen, Lester R.B.S.C., Claresholm; Bell, Donald Murray, Edmonton; Bofcan, Hyam, B.S.C., Vancouver; Brown, Leigh Horrold, B.S.C., Edmonton; Culbeck, Gordon Robert McLean, B.A., Nelson, B.C.; Collyer, Russell Quinton, B.A., Calgary; Cormack, George Noel, B.A., Edmonton; Cottrell, John Darnley, Calgary.

Edmunds, Lawrence Mervyn, B.S.C., Lacombe; Edwards, Orville Harold, Grammon; Ferguson, Robert Edward Hughes, B.A., Moose Jaw; Fjorvold, Alf Lee, Grammon; Fretzowak, Paul Walter, B.S., Ryley; Fulton, James Blair, B.A., Edmonton; Graham, Grenville

George Kennedy, B.A., Saskatoon; Lembeck, James Walter, B.A., Fairview; Johnston, Donald Cooper, Calgary; Johnson, Lloyd Wallace, B.S.C., Calgary; Keir, William Robert, B.S.C., Torbay; Kruttschnitt, Ernest Frederick, B.A., Macleod; Krivick, Harold, Regina; Macbeth, Robert Alexander Leslie, B.A., Edmonton; McKee, John Fleming, Nanton; MacRae, Marion Elizabeth, B.A., Edmonton; Miner, Thea, Sylvia, B.A., Edmonton; Moreau, Joseph Paul, B.A., Hory, Sask.; Neil, Rhoda Bernice, B.S.C., Edmonton; Phillips, David Lloyd Garlick, Calgary; Shulman, Michael, B.A., Dunsmuir; Sinclair, John Arthur, B.S.C., Edmonton; Stephens, John Wesley, B.S.C., Hanna; Stewart, William Dod, B.S.C., Edmonton; Waller, James Beatty, B.S.C., Wainwright; Wolocher, Michael, B.S.C., Edmonton; Yoneda, Yoshitaro, Edmonton.

Gen. Vandenberg Deputy Air Chief

LONDON, April 20.—(AP)—Maj. Gen. H. S. Vandenberg was appointed deputy commander-in-chief of the Allied expeditionary air force by Gen. Dwight D. Eisenhower yesterday, succeeding Maj. General William O. Butler, who was given an undisclosed new assignment.

Urges Seeding of "Very Best" Crops

Farmers should seed the very best crops they can grow, Dr. T. W. Grindley, secretary of the Canadian Wheat Board, stated at a meeting of the Edmonton Chamber of Commerce committee Wednesday noon at the Corona hotel.

They will have a very fair assurance of a market for all grain produced, he said.

Dr. Grindley said that there is a scarcity in the United States now, due to the heavy feeding for livestock production and unless there is a reasonably good crop this year, the U.S. may face a situation which Canada also may be facing a year hence.

Rains and an adequate seeding program are two major factors which may rally what might be called a "scarcity position" in Canada, he said.

Quota restrictions probably will be lifted for sometime to come. In his review of the grain situation, Dr. Grindley pointed out that it has made rapid change in the last 18 months. He said it is anticipated that the carry-over of wheat in July 1944 would be about 300,000,000 bushels as compared to 600,000,000 bushels in July, 1943.

I'll Be Calling Soon...

Welcome Him

Let him help YOU to help end the war SOONER!

HE'S a fellow citizen who has undertaken a very big job—one that will keep him "on the go" early and late throughout the whole loan period. To do it he has put aside his customary work.

So give him a warm welcome. Help him by being ready to buy Victory Bonds.

In the last Victory Loan nearly 3,000,000 purchases of Victory Bonds were made—more than in any previous loan. Yet, since there are about 5,200,000 people gainfully employed in Canada, about 2,200,000 still did not buy a Victory Bond!

But the supreme crisis of the war is near and Canada now needs the help of every citizen, man or woman. Everyone must strain for victory to the very utmost. If you bought bonds in the last loan, use the services of your Victory Bond salesman now for a still higher purchase. If you did not buy then, determine that nothing shall prevent you from buying a Victory Bond this time.

The Victory Bond Salesman will ask you to do only what everyone is asked to do. That is, to help supply in superabundance everything needed to hasten the war's end.

Count up your resources for a supreme effort. Be ready to buy all the Victory Bonds you possibly can.

Go All Out for Victory this way

The Victory Loan Salesman can tell you everything about buying Victory Bonds.

He will explain how, in the first place, to buy bonds out of your savings.

Then how you can buy more bonds on the monthly savings plan out of your earnings.

Buy bonds. Put every last dollar into this race for Victory.

Get Ready to Buy VICTORY BONDS

National War Finance Committee

Six-Point Plan For Dentistry Is Expounded

People are demanding compulsory health insurance and no government will last if it ignores such demands, Dr. M. Harry Garvin, Winnipeg, editor of the Canadian Dental Journal, told a gathering of about 45 dentists, who met in the Macdonald hotel Wednesday evening under the auspices of the Edmonton Dental Society.

Dentistry, which has been shaken to its roots, seeks its freedom at stake, as all freedom is at stake, while the Canadian Dental Association has not voted in favor of health insurance, neither has it voted against it, he said.

SUGGESTS PROGRAM

Dr. Garvin, speaking on "Post-War Dentistry," offered a viewpoint program for the consideration of his listeners:

1—Dentists should favor compulsory health insurance, granting that it is brought in under favorable conditions.

2—If compulsory health insurance is adopted, dentists should be included and the dental feature of the scheme should be under the control of the dental profession.

3—Everyone should be included in the plan, regardless of economic standing. A means test is not practical.

4—State dental services should be as limited in extent as is feasible.

FAVOR SALARY BASIS

5—Services should be rendered as far as possible in health centers, with personnel paid on a salary basis and with adequate pension provision. Outlying districts should be served by mobile clinics.

6—Careful study should be given as to what extent auxiliary services may be used in order to bring about an ideal state.

The speaker referred to health insurance plans in other countries, mentioning the first of such institutions in Germany in 1883, with compulsory insurance coming into effect in Great Britain and Ireland in 1912, institution of the plan in New Zealand and Australia were also referred to. Some form of health insurance was bound to come into effect in Canada before long, some changes were inevitable, he said, adding that some people could not afford to thought they could not afford the services of a dentist.

LAFF A-DAY

"He better be careful. She bites!"

The same people, he continued, spent more on candy and tobacco than they do for medical services.

STRESSES ADVANTAGES

Dr. Garvin said he personally favors all medical and dental services that it would mean regular salaries, regular hours, no worries and no billing. There would also be more control under the system and he said he believed dentists would enjoy working in groups rather than individually.

The success of the plan, however, depended on adequate salaries being paid. The government must pay proper salaries or the dentist would go into private practice, he said. Any objections to the plan should be registered before the plan became law.

Dr. Garvin was introduced to the gathering by Dr. R. A. Rooney, president, Canadian Dental Association, while a vote of thanks to the speaker was tendered by Dr. Alex. Genero.

Presentation of a desk set to Dr. Garvin was made by Dr. Scott Hamilton, school of dentistry, University of Alberta. Dr. W. E. Webber acted as chairman.

Says Industry Must Expand For Full Work

Expenditures of 20 per cent of the national income must be made in expansion of plant and machinery and new enterprises if full employment is to be maintained in the post-war period, R. J. Jettie, Montreal, president of the Royal Trust Co., told members of the council of the Edmonton Chamber of Commerce at a luncheon meeting held Wednesday at the Corona hotel.

Mr. Jettie, who is a past president of the Canadian Chamber of Commerce and is chairman of the advisory council of the chamber, addressing the group in the afternoon in the course of an inspection tour of western branches.

EXPANSION REQUIRED

He pointed out that no increase in the consumption of consumer goods has any great effect on the level of employment. The number of those employed in production of these goods did not vary very much from prosperous times to the depth of the depression. The chief cause of unemployment was the curtailment in expansion of factories and equipment, he said.

"If the receivers of the national income on the present basis of free enterprise do not expend 20 per cent of the national income in what may be described as the virtuous use of capital, in expansion of plant and machinery, and in new enterprises the money saved is invested and goes out of circulation. This tends to bring on depression."

He said that the money for the purchase of capital goods must be furnished by an industry itself by a proper use of the reserves which it has set aside out of earnings. Many businesses have not realized the real purpose and importance of depreciation reserves in relation to their own undertakings, or in relation to public welfare.

REPLACEMENTS SUFFER

Many firms use the amounts taken from their earnings for depreciation in order to accumulate funds to replace worn and obsolete machinery, he added.

"They are themselves unable to sell their goods at the lower prices which are due to increased consumption and when they are forced to compete for competitors who are using new machinery."

The use of such reserves is a must, he said.

Urges Close Check On Feed Supplies

SASKATOON, April 29.—(CP)—Federal agriculture minister J. G. Gardiner emphasized in an interview here yesterday that farmers should carefully check their grain supplies and not dispose of any

which might require later at least until June or July when a better idea of the crop would be available. "I am a bit concerned about the amount of moisture for we are starting off with a low supply," he said, adding that if there was enough rain, conditions would be all right.

"There is a lot of livestock in the country, more than there was last year, and if people get rid of their feed, particularly oats and barley, they might find it difficult to purchase later at any price."

There was no risk involved in holding feed grains, the minister said, because the price was guaranteed and it appeared that whatever demand there was from the United States would continue.

AT EATON'S, FRIDAY

Bed Chesterfields

Priced for Friday Clearance! Regular \$189.00 to \$209.00

An opportunity you'll want to be in on! Soiled floor samples in bed chesterfields, offered at really splendid savings! Hardwood frames, with walnut showwood fronts, covered in hard wearing cotton tapestries, and cotton and rayon damasks. Pullout base converts chesterfield into a comfortable spring filled bed at night. Matching chair, two pieces.

If desired, Budget Plan terms in accordance with Wartime Prices and Trade regulations may be arranged.
